SEGUNDA HISTORIA. SANTIAGO LUIS FERRER (KENDER) CURATED BY CHIARA CANALI - CUBEART

Tuesday, February 23, 2021 to Monday, March 15, 2021

Segunda Historia. The current History of the Cuban artist Santiago Luis Ferrer Kender represents the common thread between his first exhibitions in Italy and his uninterrupted production in Cuba. The works from the period of his first solo exhibition in Milan "Pavana para un poeta difunto" also curated by Chiara Canali have a foreboding vision and already reveal the poetic evolution of his artistic discourse.

Kender's research «is progressively built through pictorial cycles that revolve around intimate and existential themes, says Canali ... or the feeling of mysticism and animism of Cuban religion ...

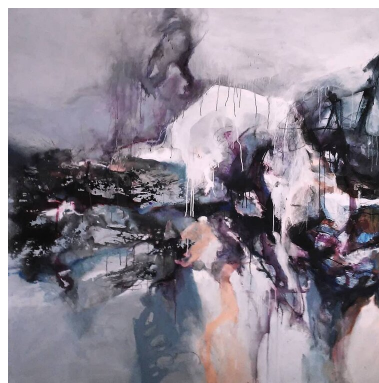

[...] «Kender's painting, continues, reveals anguish and disturbances of the human psyche. The innate vitality of the artist is reflected in the painting through the exacerbation of the chromatic masses, with a coherent exaltation of the timbral rhythm "
